Experience

IT Support Analyst — Northland Properties Corporation

Mar 2025 – Present | Vancouver, BC

- Respond to high-volume support requests through email, phone, Microsoft Teams, and the internal ticketing system.
- Provide Level 1 and Level 2 technical support for corporate, hotel, and property staff across Microsoft 365, Windows, account access, networking, printers, VPN, and business applications.
- Troubleshoot and resolve end-user issues through ServiceNow, email, phone, Microsoft Teams, and remote support tools while ensuring timely communication and follow-up.
- Administer user accounts, password resets, permissions, shared mailboxes, distribution groups, and access requests through Active Directory, Entra ID/Azure AD, and Microsoft 365 admin tools.
- Support endpoint and device-related issues, including Windows troubleshooting, software installation, printer setup, Outlook and Teams issues, and user profile problems.
- Investigate network-related issues involving Wi-Fi, LAN connectivity, VPN access, DNS/DHCP symptoms, and device connectivity before escalating to senior IT or network teams.
- Document troubleshooting steps, root cause findings, ticket updates, and resolutions to improve handoff quality and internal knowledge sharing.
- Coordinate with internal IT teams, vendors, managers, and property operations to resolve technical issues affecting business continuity.
- Deliver professional customer-facing IT support in fast-paced hospitality and office environments while balancing technical troubleshooting with clear communication.

Software Development QA Intern — Fortinet

Dec 2022 – Sep 2023 | Burnaby, BC

- Tested FortiOS and FortiSASE features across cloud, frontend, backend, and browser-based environments.
- Executed kernel-level commands to validate system behavior, logs, and software functionality.
- Tested multiple devices and verified API-based communication between systems.
- Performed functional, regression, and integration testing to identify software defects.
- Collaborated with a QA partner to complete over 220 testing tickets during each release cycle.
- Documented bugs clearly and worked with developers to confirm fixes before release.

Food Service and Community Worker I — City of Coquitlam (Municipal Government)

Oct 2022 – Dec 2022

- Delivered front-line customer service at community centres.
- Assisted residents with inquiries and processed payments using POS systems.
- Maintained clean work areas and ensured adherence to municipal service standards.

Housing Support Worker — Community Builders

Nov 2020 – May 2021

- Provided compassionate support to residents, ensuring a safe and welcoming environment.
- Completed shift documentation, incident reports, and resident logs.
- Coordinated with administrative and housing teams to support resident needs.

Shelter Worker — The Salvation Army (Belkin House)

Oct 2016 – Jan 2018

- Supported 200+ residents with daily assistance, and inquiries.
- Prepared reports and documented shift activities, incidents, and case notes.
- Trained and supervised volunteers to ensure smooth operations.

Administrative Officer & Technical Specialist — United Nations Interim Force in Lebanon (UNIFIL)

Jan 2011 – May 2012

- Managed administrative files, daily reports, and documentation using a military database.
- Served as first point of contact for inquiries, providing professional communication and assistance.
- Maintained 300+ telecommunications devices and documented system checks.
- Coordinated across multinational teams and ensured accurate information flow.
